

ERRATUM

In the manuscript “Effects of biopesticides on the management of *Myzus persicae* Sulzer and *Phenacoccus manihoti*”, DOI: <https://doi.org/10.5327/fst.00269>, published in the Food Sci. Technol, Campinas, 44, e00269, 2024, on page 4:

Where it reads:

Table 5. The percentage mortality of the (*Phenacoccus manihoti*) noted after 24 and 48 h periods.

| Plant extract | Mean percentage of aphid mortality | |
|---------------------------------------|------------------------------------|---------|
| | 24 h | 48 h |
| <i>Zingiber officinale</i> (rhizomes) | 100a | 100a |
| <i>Mentha viridis</i> (leaves) | 96.667a | 100a |
| <i>Jatropha curcas</i> (leaves) | 50b | 96.667a |
| Control (methanol) | 20b | 46.667b |

*There are two groups a and b in which the means are not significantly different from one another, using LSD.

It should read:

Table 5. The percentage mortality of the (*Phenacoccus manihoti*) noted after 24 and 48 h periods.

| Plant extract | Mean percentage of mealybugs' mortality | |
|---------------------------------------|---|---------|
| | 24 h | 48 h |
| <i>Zingiber officinale</i> (rhizomes) | 100a | 100a |
| <i>Jatropha curcas</i> (leaves) | 100a | 100a |
| <i>Mentha viridis</i> (leaves) | 96.667a | 100a |
| Control (methanol) | 13.33b | 33.333b |

*There are two groups a and b in which the means are not significantly different from one another, using LSD.
